## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 1-3 and 22-39 drawn to inventions non-elected. Accordingly, claims 1-3 and 22-39 have been cancelled.

### **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: The main reason for the allowance of claim 4 is that the prior art fails to disclose a vehicle including a manually operable mode switch settable in first, second, and third positions and located for easy operation by an operator of the vehicle while the vehicle is moving, the rear differential including a lock for locking the differential in response to setting the switch into the first or second of the switch positions, the coupler enabling torque received from the engine to be supplied to at least one front wheel to enable front wheel drive in response to setting the switch in the first position, and the coupler disabling engine torque from being supplied to the front wheels in response to setting the switch in the second or third positions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
